February 1535 €

### Photograph magnificent Golden Eagles from comfortable hides

We have fed wintering **Golden Eagles** at our feeding site for over a decade now and we are proud to say that this is the best place for Golden Eagles in action photography in Finland. Golden Eagles visit our feeding site very actively during winter, and in January there can be up to ten individuals daily. Our hides provide excellent opportunities for a great diversity of images of Eagles in flight, perching, and most importantly - Golden Eagles in action!

Finnature's new Golden Eagle hide is really comfortable with a great heating system, standing height and good office chairs. This luxurious hide is only available for the Finnature's photography groups and brings your hide experience to the new level!

We offer a shorter and a longer tour in accordance to our clients' wishes. During this tour we have either three or five full days of Eagle photography at our comfortable and professional hide.

### Highlights

**Golden Eagles** in flight, on ground, perched on trees and fighting. Other possible species **Great-, Crested-, Willow and Blue Tits, Yellow Hammers, Bullfinches, Eurasian Jays, Gey-headed and Great Spotted Woodpeckers and Red Squirrels.**
