

Owls of Finland - Winter 2016

Destination: Kuusamo
Focus: Owl photography
Grading: Middle distance walks
(occasionally with snowshoes in deep snow)

Group Size: 4 – 6 persons
Time: 3 - 7 March.
Price: 1 880 €, single supplement 280 €

Photograph the hunting Owls in snowy conditions

Finland is famous of having good populations of northern owl species. Finnature arranges tours for Owl photography mainly during the winter season, when owls can be hunting in the open fields.

This year we have Hawk Owls and Pygmy Owls. Possibility to Ural Owls. If Great Grey Owls appear we photograph also those. But notice that at the moment we do not have photographable Great Grey Owls.

This five days package includes three full and two half days of photography with Finnature guide. We will photograph Owls when they are active (normally in the afternoons) and in the mornings we photograph other species. In Kuusamo we will photograph e.g. Dipper, Siberian Jay and Siberian Tit.

If owls are not photographable for some reason or another (e.g. bad weather conditions) Golden Eagle photography and other available species.

Highlights

Hawk Owls, Pygmy Owl
