Golden Eagles in beautiful autumn colors

Our Golden Eagle winter tours are popular and now we offer a short Golden Eagle photography tour to our successful Eagle site near Oulu in autumn as well! A little different, this season provides possibilities for Eagle images that stand out from the crowd - the background trees and ground vegetation glow in beautiful autumn colors and the occasional morning frost makes everything seem even more fragile and beautiful. Eagles start to visit our feeding site in September.

Our excellent Eagle hide provides fine opportunities for a variety of Eagle images - now with an autumn feel. During this tour we have three full days of Eagle photography at our comfortable and professional photography hide.

Highlights

Golden Eagles in flight, on ground and perched on trees. Aurora Borealis.
